

Our client is located in the Piedmont area (Lago Maggiore) Italy

The Institute specializes in the study, treatment and rehabilitation of severe obesity and associated comorbidities, metabolic diseases, eating disorders, developmental abnormalities and neurological diseases and has advanced facilities for the functional recovery of patients affected by these diseases. Inpatients are therefore initiated into targeted diagnostic, therapeutic and rehabilitation pathways, of an integrated multidisciplinary type.

The Piedmontese branches of the Institute consist of:

- San Giuseppe Hospital in Piancavallo, which has 350 beds under contract with the National Health Service;
- Poliambulatorio Diagnostico di Villa Caramora, which is the outpatient clinic strategically located in Verbania, on the shores of Lake Maggiore, for a complete diagnosis and follow-up of the patient.

The client is searching for doctors specialized in:

Pneumology, Internal Medicine, Cardiology,
Endocrinology,Physiatry,Neurology,Geriatrics,Pediatrics

The client offers a very attracting remuneration package and excellent working and living conditions

English language is a must ,Italian not needed but will be considered as a strong plus
